The losses of the people who had made preparations for the London coronation are estimated at $5,000,000.

That 14-year-old Mooresville, N. C., girl who married a 70-year old lover, was probably short on grandpas.

Teeth are valuable in Russia. A judge recently gave a woman a verdict for $50,000 against a railroad, because she lost five teeth in an accident.

The Dublin papers say that since King Edward's illness turmoil is at an end, and that all classes sympathize with him. Just like the Irish, who never jump on a fellow when he is down.

It is said that tons of food brought into London to feed the coronation sight seers will have to be destroyed. Couldn't they give it to the poor of the town, who would doubtless find use for it?

The great flour mills of the Northwest will henceforth ship their flour for export by way of the Mississippi river and New Orleans instead of East by the Lakes and railroads. New Orleans is not offering any objection.

The Illinois Steel Company is not as big as the U. S. Steel Trust, but it has a bigger sense of the fitness of things. It has advanced the wages of its workmen 10 per cent. on account of the increased cost of living.

The New York *Tribune* says the butchers of that city have organized an association, and propose to buy cattle and be independent of the Beef Trust. If there were no duty on imported cattle they could draw on Canada and carry out the plan, much easier than they can now.

Nut growing is making so much progress in some of the Southern States that a meeting of the Southern Nut Growers' Association has been called at Macon, Ga., on the 15th of July to consider matters in which the nut growers are interested. Judging from the reports this business seems to be shelling out all right.

The unusual number of sudden deaths in the town Meriden, Conn., leads to the suspicion that there is a suicide club there and there is talk of hunting it up and breaking it up. They may save themselves the trouble, for if these suspicions be founded, at the rate the deaths are happening it will soon break itself up.

SOUTHPORT'S JULY FOURTH.

Arrangements Complete for Transportation—Some of the Features of the Occasion.

Mr. C. Ed. Taylor came up to the city again last evening to complete all arrangements for taking hundreds of Wilmington people to Southport upon the occasion of the grand fourth of July celebration there next Friday. Mr. Taylor says that the features of entertainment this year will exceed all previous records and are sure to provide much pleasure for all. The boat racing will be especially fine.

The *Compton* has been secured to make three round trips during the day and the *Wilmington* will make her usual five trips with transfer of passengers at the pier for Southport. The remarkably low rate of 25 cents for the round trip has been secured.

The committee of arrangements consists of the following: T. T. Allard, (Chairman), C. Ed. Taylor, J. Berg M. C. Guthrie, E. H. Cranmer, Henry Daniel, J. A. Pinner, and W. H. Pyke.

Chief Marshal, E. D. Guthrie, Esq., has appointed the following aides: John Price, Robert Thompson, Harry Mintz, Thomas Vines, R. L. Wyatt, J. A. Thomson, Ike Davis, Arthur Dosher, Millard Windsor and Elmer Adkins.

LOCAL DOTS.

— An important notice to liquor dealers liable for Schedule B tax may be found in another column.

— Mr. George Honnet has resigned his position as watch inspector for the Seaboard Air Line, second division, extending from Wilmington to Hamlet.

— Fayetteville is arranging for a big celebration of the "Fourth." There will be various contests in athletics, fireworks display and other patriotic observances.

— Rev. J. A. Smith's subject at Southside Baptist church to-night will be the "Glorious Millenial Reign of Christ," as taught in the 20th chapter of Revelations. The revival meetings will still continue.

— Allen's New Orleans Minstrels will give one performance in Wilmington July 3d. They show under a mammoth canvas, said to have a seating capacity of two thousand, at the corner of Red Cross and Sixth streets.

— Friends in the city have received handsomely engraved invitations to attend an impromptu dance to be given at Dr. J. N. Johnson's residence, Warsaw, N. C., Tuesday evening, July 1st. Music will be by the Boston Italian String Band.

Trolley to Delgado To-day.

Beginning at 2 o'clock this afternoon the Consolidated Railways, Light and Power Company will run trolley cars to Delgado Mills, one mile from the city. A car will leave Ninth and Princess every ten minutes. The fare from any part of the city, including "Brooklyn," to Delgado will be only 5 cents. Only one transfer will be given—at Ninth and Princess. The line to the beach is now completed as far as Delgado and a large force of workmen were busy last night in making the connection at Ninth and Princess. The line will be well patronized to-day.

Remains Laid to Rest.

The remains of the late Mary J. Foster, who was drowned at Wrightsville beach Friday afternoon, were taken from the city residence of her aunt, Madame ElRado, at 11 o'clock yesterday morning and interred in Bellevue cemetery by Undertaker W. W. King. There were no funeral services, owing to a misunderstanding as to the arrangement and the unfortunate young girl was silently laid away in the presence of the only relative here and the undertaker.

Sacred Concert To-day.

The public is asked not to forget the sacred concert at Carolina Beach this afternoon by the Post Band from Fort Caswell. There will be two trips of the steamer *Wilmington*, at 9:30 A. M. and 2:30 P. M., and both will doubtless take down a large crowd. Passengers for Southport will be received by each boat. The 7:45 P. M. trip to the pier and return will be run as usual.

FUNERAL OF MRS. M. H. BROWN.

It Will Be Conducted at 9:30 A. M. To-day from St. James' Church.

The STAR yesterday only briefly noted the death of Mrs. Mildred Holmes Brown, which occurred the same morning at 1:05 o'clock at her home, No. 308 North Third street. Mrs. Brown had been an invalid for the past ten years and while her death was not wholly unexpected, it came as a source of sincere regret to hundreds of friends in the city.

She was born in Wilmington 73 years ago and was a daughter of the late Gabriel Holmes. She was a devoted member of the parish of Saint James and was noted for her beautiful Christian character. She leaves to mourn her death one brother, Mr. W. H. Brown, of Aberdeen, Miss., and four children, Miss Lillie H. Brown, Mr. William H. Brown, Mr. John H. Brown and Miss Minnie B. Brown, all of this city. She was an aunt of Mr. Gabriel Holmes, of Wilmington.

The funeral will be conducted at 9:30 o'clock this morning from Saint James' Church, with interment in Oakdale.

FIRE THIS MORNING.

Stock of Z. V. Croom & Co., 110 North Water Street, Damaged About $1,000. Fully Covered by Insurance.

At 1:10 o'clock this morning fire was discovered in the rear of the wholesale and retail grocery store of Z. V Croom & Co., No. 110 North Water street. An alarm was sent in to the department from box 41, Market and Water streets, and the central station was notified by telephone from the MORNING STAR office.

The fire started in some hay and rubbish in the rear of the store from an unknown cause. It is roughly estimated that the damage to the stock will exceed $1,000; insurance $2,700. The building belonged to Mr. F. G. Punke, and is damaged several hundred dollars.

The stock of Mr. Peter McQueen, Jr., wholesale grocer, next door on the south, was slightly damaged by smoke.

The department yesterday morning responded to an alarm from box 22, Second ane Market streets. The blaze was in one of the row of colored shoe shops on Second street and did no damage.

DEATH OF A YOUNG MAN.

Mr. Alexander Kerr, of Cape Fear Township, Died Yesterday Morning.

Many friends in the city and county of Mr. and Mrs. J. T. Kerr, of Acorn Branch, will sympathize with them deeply in the loss of their son, Alexander McD. Kerr, aged 20 years, whose death occurred of typhoid fever at 7 o'clock yesterday morning at the James Walker Memorial Hospital. Young Mr. Kerr was well known and highly esteemed in a wide circle of acquaintances in Wilmington, where he was employed in the office of Mr. E. Borden, superintendent of the Atlantic Coast Line. He was energetic and of a congenial, happy nature. He was a member of Wilmington Division, Naval Reserves, and in his memory the armory of the company was draped yesterday. A detachment of Reserves will attend the funeral at 11 o'clock this morning at the home of his parents at Acorn Branch.

The deceased young man is survived besides the parents by one brother, Colon E. Kerr, and three sisters, Misses Etta, Lilly and Lottie Kerr. They have the sincerest sympathy of many friends in thir loss.

LOCAL SHIPPING INTELLIGENCE.

Vessels That Came and Went at the Port of Wilmington Yesterday.

The Russian barque *Constantin*, Cape Town, South Africa April 30th, arrived yesterday to Messrs. Heide & Co.

The schooner *Gem*, Capt. Smith, arrived light from Boston and will be loaded with cross ties by G. T. Flynn & Co.

The schooner *Ralph M. Haywood*, Capt. Philpot, cleared yesterday with cargo of 11,090 cross ties consigned by the Hall Tie and Lumber Co., to par ties in Boston.

St. Paul's Social Circle.

The Social Circle of St. Paul's Episcopal church held its monthly entertainment on Friday night at the residence of Mrs. Vincent on Second street. The evening was passed in a most enjoyable manner, the exercises consisting of readings recitations, games and social intercourse. Prizes were bestowed upon the successful competitors in the games and after bountiful refreshments had been served the company dispersed, feeling that a profitable and pleasant evening had been passed.

Mr. Holden to Travel.

Mr. A. S. Holden has returned home after an absence of five weeks doing some special work in South Carolina. He has accepted the position of the first Southern representatives of the Lindner Shoe Co., of Carlisle, Pa., manufacturer of fine shoes. He will travel North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, and Louisiana. The firm has branch offices in New York, San Francisco, Philadelphia, Washington, D. C., and London, Eng.

Error as to Location.

The STAR was in error yesterday in stating that the young girl, Mary J. Foster, was drowned in front of the Ocean View Hotel. The accident occurred nearly in front of Mr. J. A. Arringdale's cottage. The Ocean View Hotel and bath houses have ample life lines and no accident has ever occurred to one of its patrons under the present management.

Passenger Depot Damaged.

Florence *Times* 28th: Passengers on the southbound fast mail, "35," this morning told of a very severe electrical storm that occurred at Wilson, N. C., last night. The Coast Line passenger depot was fired by lightning and considerably damaged. It was not totally destroyed, however. The Coast Line freight depot at Jamesville was burned Thursday night.

Wilmington celebrated the close of the first series of the North Carolina Baseball League by losing the third game to Durham yesterday afternoon by the tremendous score of 14 to 2.

A fairly large crowd witnessed the spectacle which was not interesting from the fact that the Bulls laid 11 runs in cold storage in the very first three innings—four in the first and seven in the third.

Krause opened on the slab for Wilmington but was again very unsteady. A pass to Curran, a steal to second, a single by Womack and a two-bagger by Costello to left field, brought in two men with none down in the very first inning. Then Rockford flew out to left and Stocksdale, next up, drove a double to left, scoring Costello. Curran went out, Lawson to Dommel but McDade sneaked in another single scoring Stocksdale. The net result of that inning was a pass, a stolen base, two double hits and two singles off Krause's delivery, which fetched four runs. In Wilmington's half of the first, Holland flew to right; Mathison was hit by pitched ball, was advanced to third on Dommel's two-base hit to centre and scored on McGinnis' long fly-out to centre. Lawson was out, pitcher to first.

Both teams were out in their order in the second and the third sealed the fate of Wilmington forever, so far as that game was concerned. Costello, first up, fanned, but Rochford and Stocksdale each followed with a pretty single to centre. Curran hit one to Lawson too hot to handle and the bases were full. Krause was not equal to the emergency and McDade drew four balls forcing Rochford home. The bases were still full with one man down when Soffie singled to right, scoring Stocksdale and Curran. Morris fouled out to third and Krause made an last effort but Curtis singled by short and Manager Mace retired the "youngster" in favor of Karns. The circumstances were not very propitious for any pitcher with three men on bases and the opposing side half a dozen runs or more to the good, but Karns went in gracefully. It was not entirely his fault but Womack drove a long one into the trees in left field and it netted him a home run, bringing in three other men. Costello ended the agony by going out to McGinnis.

Wilmington scored once more in its half, but the odds were too great to overcome and the game progressed in a happy-go-lucky manner until the end. Wilmington's last run came on a single by Karns to centre, his steal to second and a long fly of Dommel to centre.

The visitors got three more on errors in the seventh and the ninth closed with four hundred disappointed spectators leaving the hot sultry field. The score:

The Shorthorns Tossed Us, Gored Us and Pawed Us.

— No, we don't feel a bit funny.

— Another prime pitcher is an absolute necessity.

— Karns led in the batting with two hits. His leg work, too, was fine.

— They did us up almost as mercilessly as we sjamboked them Thursday.

— Of course, it was an uninteresting game with the score 14 to 2 "again" us.

— The horse editor says he hasn't a single joke left in his haversack. He lost forty cents on the game and is financially embarrassed.

— The present percentage column will be rubbed out to-morrow and every team will start even.

— Wilmington will play six games with Newbern—a very strong team—this week, and her pitching staff is not what it should be.

— If the home team expects to play winning ball with such teams as Charlotte, Raleigh and Newbern, its weak point must be strengthened.

— Confound the luck. The horse editor had some of the finest "poetry" ready for this issue that ever startled two hemispheres. It was just Bully.

— Karns performed the somewhat remarkable feat of striking out Stocksdale twice. There is probably no safer hitter in the league than Stocksdale.

The Team's Batting Averages.

The batting averages of the Wilmington team for the last twenty-one games, beginning with the series in Greensboro, has been computed for the STAR as follows:

THE FAYETTEVILLE PRIMARY.

Cross Creek Township Voted on State and Other Officers.

[*Special Star Correspondence.*]

FAYETTEVILLE, June 28.—Pursuant to a call issued by the County Executive Committee, Democratic precinct meetings were held in the four voting precincts of Cross Creek township (Fayetteville) at 8:30 o'clock last night. In the first precinct, no primary was demanded, and ten delegates to the County Convention were elected. The delegates were uninstructed.

In the second precinct a primary was demanded, and held, which resulted in the following vote: For Chief Justice, Clark, 15; Justice, 11. Associate Justice—H. G. Connor, 25; Platt D. Walker, 21. G. H. Brown, 5. For Congress—E. J. Hale, 9; John D. Bellamy, 27; J. A. Brown, 2. The chairman was instructed to appoint eleven delegates to the county convention, who should represent the vote of the precinct as cast.

In the third precinct, no meeting was held on account of inclement weather. The meeting was adjourned till next Tuesday night.

In the fourth precinct, a demand was made for a primary, to vote on the various Congressional and State candidates. Chrirman James D. McNeill refused to recognize the Democratic plan of organization as laid down by the State Executive Committee as to primaries for the several candidates, stating that Cumberland county was not governed by the State Plan of Organization, but by a precedent made by the County Executive Committee several years ago, and that a majority ruled. Upon motion for the election of delegates to the County Convention and a motion to table that motion, the vote to table that motion was lost by a vote of 32 to 36, which was a test vote showing the sentiment of the precinct as to Maj. Hale's candidacy for Congress. Had a primary been allowed, it is safe to say Bellamy would have received 26 of the 58 votes present. A protest was entered and an appeal taken to the County Convention, from the decision refusing to allow a primary after demand. Those demanding a primary say the refusal to allow it is contrary to the State Plan of Party Organization, and results in suppressing the sentiments of a large and respectable minority of Democratic voters. The fourth is the home precinct of Major Hale and Chairman J. D. McNeill. For Chief Justice, Clark received 35 votes and Justice 16 votes. Connor and Brown were unanimously endorsed for Associate Justices.

WAKE COUNTY CONVENTION.

Pon for Renomination—Anti-Clark Element Held Aloof—Allen for Judge.

[*Special Star Telegram.*]

RALEIGH, N. C., June 28.—The Wake Democratic Convention to-day instructed its delegates to the fourth congressional district convention for Edward W. Pou's re-nomination, and adopted a resolution that the county vote on associate justice in the State Convention be divided equally between Connor and Brown and cast solidly for Clark for Chief Justice. The anti-Clark element had no representation whatever in delegations to to-day's convention. They did not attend the recent primaries and therefore made no protest on the convention floor. W. R. Allen of Wayne was endorsed for Superior Court Judge and Armistead Jones for solicitor of this district. The convention instructed for Beddingfield for CorporationCommissioner, and J. Y. Joyner for Superintendent of Public Instruction. The county executive committee calls primary for county officers July 26th and the convention for August 2nd.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

SUNDAY MORNING, JUNE 29

A DISTINCTION WITH A DIFFERENCE.

There seems to be a determination on the part of Wm. J. Bryan and some of his friends who supported him in 1896 and in 1900 to oppose every movement looking to harmonizing Democrats who differed in one or both of those campaigns unless they who took the gold side of the money question confess that they erred and ask forgiveness. When they strike at Cleveland and Hill they strike at every man who called himself a Democrat and followed the lead of these men. If they would close the door on Cleveland, Hill, Whitney and other Democratic leaders of their calibre, why not close it on all who acted with them in either one or both of the last two elections? They would hardly go that far and yet it is to this that their door-closing fulminations logically lead.

As we understand it, the Democrats who refused to support Wm. J. Bryan on the money issue, and are now seeking to harmonize and co-operate with their former party associates by eliminating that issue as one that is, for the present at least, overshadowed by other issues on which nearly all Democrats agree, do not ask renunciation of a belief in free silver; all they ask is simply that that question be permitted to rest and be not brought forward as an issue.

In criticising Mr. Cleveland and his speech at the Tilden club reception, a criticism of which Mr. Cleveland more than the speech was the subject, Mr. Bryan takes the position that a failure to reaffirm the platform of 1896 is a desertion of Democratic principles. If that be so then every Democratic convention which has ever met and adopted a platform that didn't reaffirm the previous platform and all the previous platforms, deserted Democratic principles.

In the Louisville *Courier-Journal* of the 25th inst., there is an article written in reply to a quotation by Mr. Bryan's *Commoner*, from an article in the *Courier Journal*, which gave a wrong impression because the full text was not given. The quotation is contained in the following extract from the *Commoner's* article:

"In the *Courier-Journal* Henry Watterson says: 'If it be insisted that we turn back for a platform, why not to that of 1892, on which we won our last Presidential battle?' A King was once congratulated upon a triumph he had won in battle after a desperate struggle in which the larger portion of his army was annihilated. 'Another victory like that,' said the King, 'and my Kingdom is gone.' It is true that in 1892 'we won our last Presidential battle,' but when the Democrat recalls the record of the Administration elected in 1892, he is impressed with the thought that that was the most expensive victory that ever came to a political organization."

Upon this Mr. Watterson comments as follows:

The wholly agree with Mr. Bryan. But his quotation does Mr. Watterson serious injustice. As torn from its context it makes Mr. Watterson suggest the re-enactment of the platform of 1892, when, in reality he proposed nothing of the kind. Here is what he did say—

"To those Democrats who cling to the idea that we are under some obligation in the interest of consistency to repeat the admitted mistakes of other campaigns, let me say that there is nothing sacred either about platforms or about consistency. Each Presidential campaign must stand as each has always stood upon its own bottom. In public life men must often do as they can rather than as they would; in practical affairs, both public and private, the rule that circumstances alter cases is above all law. * * * In 1860 the Democratic party split wide open. It had two Presidential tickets and two platforms. In 1868, it came together again. Did it dream of re-enacting either of the platforms of 1860 or even reaffirming the platform of 1864? In 1876 the party again reunited after another schism. The greatest of its National Conventions assembled in St. Louis and nominated the immortal Tilden. Did that convention consider for a moment the platforms of 1872, or of 1868? Why should we agitate ourselves over the platforms of 1896 and of 1900, on which we lost two successive Presidential battles? If it be insisted that we turn back for a platform, why not that of 1892, on which we won our last Presidential battle? The truth is, we should retrace no footsteps, saddle ourselves with no handicaps, but, turning our backs upon the past, our faces to the future and the foe, we should gather beneath the ample shelter of the old Democratic camp-ground and rekindle the fires that once blazed there."

Mr. Watterson, who once admired Cleveland, does not now love him any better than Mr. Bryan does, and therefore it is not partiality for Cleveland that causes him to take issue with Mr. Bryan, in doing which he thus forcibly draws the distinction between dropping what were once issues and abandoning principle.

The Democratic platforms of 1896 and 1900 are as dead as the Democratic platforms of 1860 and of 1892. If we are to carry the country in 1904, as we have good prospect of doing—sure of carrying the next Congress in the coming autumn elections—we must open up a fresh set of books. We must turn our backs upon all by-gones—on much mayhap that was good—on much assuredly that was ill—in favor of such an alignment upon the living issues of the time as shall bring us within close range of the common enemy.

This does not in the least imply any abandonment of principle, or conviction. There are men still living in the South who conscientiously believe the institution of African slavery of divine origin and best for both races. Does such a man sacrifice anything of his conscientious belief when he admits that the institution of African slavery no longer exists and loyally accepts the amended Constitution of the United States? In like manner, touching individual beliefs about questions no longer vital, they should be allowed to sleep, each separate Democrat reserving to himself the right to think as he pleases to think, but making this concession to the general community of interest.

If we read Mr. Bryan aright, he is not willing to do this. He insists upon at least such a recurrence to the platforms of 1896 and of 1900, as will keep them ever present in the public mind. This it seems to us is to play directly into the Republican hand. It is certainly what the Republicans would have us do. If they can by any hook, or crook, escape the frightful record they have made, and are making, they have a safe thing ahead of them. Seeing this clearly, the Democrats of both Indiana and Illinois, pivotal and typical States, did what the next National Democratic Convention is sure to do, made platforms of their own suited to the altered face of the political situation.

Why should Mr. Bryan antagonize a policy so obviously essential to a struggling minority? Why should he make himself unhappy because events have not wholly justified his theories, or realized his dreams? Why should he insist upon the repetition of a series of abstractions upon which the party encountering a dwindling, not an increasing vote, has lost in succession two Presidential elections, well nigh effacing itself in all the determinate States?

Differing from his brother Democrats in 1896 on the money issue, Mr. Watterson took no part in the campaign, but took a trip to Europe. In 1900 he stood with the party, although the platform of 1896 had been reaffirmed. But it will be remembered that Mr. Bryan, who now declares it a desertion of principle to refuse to make the issues of 1896 the issues of 1904, subordinated what was the leading issue in 1896 and made it subordinate to one which was not an issue in 1896 and was not thought of even as a remote possibility—the issue of "imperialism." He did not repudiate his allegiance to free silver, he simply let it rest because the other was the issue on which attention most centered and in which the masses of the people then took the most interest. No one found any fault with Mr. Bryan for that, (although the Republicans taunted him with subordinating silver) because the Democrats who were supporting him thought he was doing a sensible thing.

This is what the dissenting Democrats of 1896 and 1900, who are now urging harmony, ask, nothing more nor less, not that free silver be repudiated or renounced, but that it be left to rest and that Democrats take up the issues on which there are no differences among them, the issues on which Democrats can get together; that we look to the future and not to the past, and make our fight on living issues, and not on issues in which Democratic masses have lost interest and with which they couldn't be enthused or roused even with the stimulus of Bryan's magnetic eloquence.

A SPLENDID SHOWING.

Figures are always more convincing and sometimes more eloquent than words, which is true as to the figures published in our press dispatches yesterday, taken from the United States census report, showing the South's progress in cotton spinning in the past two decades, a progress which we venture to say has never been equalled in any other country in the world.

The mere statement that the capital invested in this industry has increased in twenty years from $20,413,414 to $137,172,561 tells its own story not only of phenomenal growth, but of steady and solid growth, and this, too, in a section where the business had, practically speaking, to be begun from the ground up, where there were few men who understood it, where the labor had to be taken out of the fields and towns and taught mill work, and where it was confidently predicted that the industry could not succeed for these and other reasons.

It is gratifying to North Carolinians that while the South as a whole presents such a splendid exhibit and some of the Southern States have made remarkable progress, North Carolina, with South Carolina, has forged to the front, with the indications in favor of her leading the procession a considerable distance in advance.

But with the start she has gotten this may be expected, for there is no State more favored in advantages for carrying on this industry, with her mountain border and foothills from and through which flow numerous streams, furnishing inexhaustible and unlimited water power, some of which are being utilized for the transmission of electric power, thus extending the area and enlarging the radius for mill operations.

Senator Gallinger's recent speech on the Dingley tariff as the great prosperity booster, was intended as a campaign document, mainly for circulation in his State, New Hampshire. There were not a dozen Senators in the chamber when it was read, but that got it into the *Congressional Record*. It will go out under his frank, a double prostitution of the *Record* and of the franking privilege.

Eastern cities are making a great fuss over the soft coal smoke. When they get used to it as many Western and Southern cities have, they will inhale it and swallow it and not make half as much ado over it as they do now. Nothing like being used to things when you have to.

SENATOR TELLER'S SUBTERFUGE.

That was not an honest reason which Senator Teller gave in his speech in the Senate, Friday, for his oppositition to reciprocity with Cuba, when he said he would agree to it provided there were a proportionate reduction on manufactures of steel and other things, in other words he insists upon general tariff revision before any concessions shall be made to Cuba.

That was the first time as far as we have read, that this position has been taken by any of the opponents of reciprocity with Cuba—taken very late in the day by Senator Teller, who has been one of the spokesmen for the beet sugar men, and is taken simply because he knows that there is not the slightest probability of tariff revision now, and has not been at any time since this Congress convened. In all their opposition to reciprocity the beet sugar men and their representatives, never once expressed a willingness to submit to a reduction provided the reduction were general. They simply contended that a reduction of the duty on raw sugar would be playing into the hands of the Sugar Trust (which it would be), and whether it would or not such reduction would ruin their infant industry, which still stands in need of protection, and will need it, according to President Oxnard, for at least ten years, by which time it will be able to stand alone.

Senator Teller may be in favor of tariff revision, but if he is he has had abundant time to show it since Congress met, by making some movement in that direction, which would have been a better evidence of sincerity than this eleventh hour declaration, which is a mere subterfuge, and not even a half way respectable one.

It isn't considered much of an offence to steal in China, provided the thief is smart enough to get away with the loot. That Chinese idea seems to have struck in more or less in portions of this country, especially when the stealings are respectably large.

CURRENT COMMENT.

—— Despite it all, the Democrats of the country are going right along getting together and they will keep it up. They have had enough of internal wrangles and they are going to quit. There is no use bucking against an irresistible tendency.—*Norfolk Virginian-Pilot, Dem.*

—— The Federal Oleomargarine law is certaintly one of those through which "a coach and six" can be driven with ease, and have the axles greased on the way. To avoid the tax of ten cents a pound to be imposed on oleo "colored like butter," they enclose packages of coloring matter to go with every pound, and the buyer can mix the same himself. The consumer is the victim as before.—*Brooklyn Citizen, Dem.*

—— Perhaps the Filipino statesman Buancemino a little overdid his part in shedding tears upon the grave of McKinley, whom he had stoutly opposed as a member of the Aguinaldo Cabinet. But what shall we say of the beet sugar statesmen, but yesterday the dead President's obsequious whorshipers, now dancing a Trust fandango over his bones?—*Philadelphia Record, Dem.*

—— In his speech in the House last week Mr. Richardson stated that there are 290 trusts in the country, with a capitalization of $10,000,000,000. Mr. J. J. Hill, in his address to the Illinois Manufacturers' Association, said there were 183 trusts, with a capitalization of $5,000,000,000. Even if Mr. Hill's small estimate be correct, said Mr. Richardson, it means that the capitalization of the trusts "exceeds the total stock of money in the United States, Great Britain and Germany combined."—*Charleston News and Courier, Dem.*

THE OLD COUNTRY BAND.

J. L. SHROY.

I mean the band of olden time, when
you and I were boys;
When music, to be sweet to us, must
drown all other noise
When martial airs entranced our ears,
and every feeling fised;
When uniforms with golden braid
were all our hearts desired.

Oh, how those fellows marched about
on every holiday!
The "Square" was filled with music
sweet, the streets with bright array,
The town folks stood upon their steps,
the country folks, discreet,
With horses prancing to the tunes
drove up some other street.

The boys? Well, you can easy guess—
we shall not try to hide it,
Whenever that old band was out, we
fellows marched beside it.
We kept the step the bandmen did,
and kept it quite as well,
And always held our corner up when
it was time to yell.

Perhaps they made some discords—
perhaps the side horns blew
About three times as strong and loud
as they by right should do;
Perhaps the cymbals didn't clang exactly with the base
Perhaps the "B-flats" missed some
notes and tooted out of place.

But what cared we when we were
boys?—to our uncultured breast
"The Girl I Left Behind Me" was as
good as Sousa's best;
Our little backs would straighten up,
our thoughts would soar away—
The acme of our earthly bliss—to play
a horn some day.

I've heard full many bands since then,
and paid to get a seat;
I've heard them play their loudest airs
and softly, sadly sweet;
But never has my being thrilled with
rapture more complete
Than when I heard old Strasburg Band
go marching down the street.

AFTER MANY YEARS

Of suffering from kidney disease, Miss Minnie Ryan, of St. Louis, Mo., found a complete cure result from the use of Dr. Pierce's Golden Medical Discovery.

It is such cures as this which establish the soundness of Dr. Pierce's theory: "Diseases which originate in the stomach must be cured through the stomach." Every other organ depends on the stomach for its vitality and vigor. For by the stomach and its associated organs of digestion and nutrition the food which is eaten is converted into nutriment, which, in the form of blood, is the sustaining power of the body and each organ of it. When the stomach is diseased the food supply of the body is cut down, the organs are starved, and the weakness of starvation shows itself in lungs, heart, liver, kidneys or some other organ.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and so cures disease of other organs which have originated through deficient nutrition or impure blood.

"I had been suffering with kidney trouble twenty years," writes Miss Minnie Ryan, of 1437 Louisiana Avenue, St. Louis, Mo., "and I had doctored with a number of the best physicians. Two years ago I commenced taking your 'Golden Medical Discovery' and 'Favorite Prescription' and took also several vials of Doctor Pierce's Pellets. I took eight bottles (6 each), and I feel now perfectly cured."

Dr. Pierce's Pellets cure biliousness.

SPIRITS TURPENTINE.

— Sanford *Express*: Small grain is now being trashed. The yield is poor. Crops are looking splendid and the prospects are as fine as could be wished.

— Laurinburg *Exchange*: We hear general complaint from the farmers on account of cotton lice. Some say that the damage has already been considerable from this cause.

— Davison *Dispatch*: The homing pigeons liberated here on the 10th inst. by the depot agent, C. W. Trice, broke the record for the fast flying pigeon. A letter from Philadelphia to Capt. Trice says that of the 1700 pigeons, nearly every one reached Philadelphia in about 6 hours. The distance is 400 miles and the birds traveled at the rate of 1716 yards per minute. The letter further says this is the best record ever made from this point.

— Richmond *Headlight*: From every section we hear of good crops, especially the cotton crop. In some sections which have suffered from the dry weather crops are somewhat later, but since the rains have came they have taken on new life and promise well. Yes, crops are good and have been made with less expense than usual, and nobody "got in the grass." If seasons hold out, Richmond farmers will not be corn buyers next year.

— Smithfield *Herald*: A meeting was held Monday, June 23rd, to establish a knitting Mill at Wilson's Mills. It was decided to make the capital stock ten thousand dollars. More than half the amount was subscribed. — The rains of the past week have greatly improved the crop conditions in this county. The outlook for a good crop was perhaps never brighter at this season. — The census report shows that Johnston ranks fifth among the counties of North Carolina in the production of cotton and third in the yield of sweet potatoes. Since the statistics were obtained in the summer of 1900, our county has made wonderful progress in both its agricultural and industrial conditions.

— Gastonia *News*: W. P. Edwards, of near Stanley, tells of a cow owned by Rufus Friday, a colored man, that gives six pints of milk at a time, but has never had a calf. The darkey bought the cow two years ago and she was expected to find a calf but did not, so he went to milking and the amount of milk has increased and they have milk and butter every day. — Mr. Barnett, of Bethel, says chinch bugs have appeared in large numbers on his farm and are doing much damage. This has been a corn buying year in Bethel and the bugs may make the farmers have to buy next year. Mr. Barnett says this is the poorest wheat year he ever saw. He drilled sixteen acres, using a ton and a half of guano and making 120 dozen bundles, which will make about 40 bushels of wheat.

Paris and Snails.

Some alarm is expressed by certain Paris epicures because the supply of snails of the finest quality seems to be falling off to a serious extent. This apprehension, however, will cause no distress upon an extended scale, as the taste for the deliberate creature that carries his house upon his back has not been worldwide. In fact, it has never gained much ground outside of the Latin race, and beyond the borders of France itself the number of gourmets who have extolled the snail as a table delicacy of the most desirable sort has not made a long list. But snails are clean feeders. Why should there be anywhere a prejudice against them among the eaters of lobsters and crabs, of sty fed pigs and of the bulging legs of goggle eyed bullfrogs?

Sinking Creek Has Sunk Again.

The disappearance of Sinking creek, a large mountain stream in Pendleton county, W. Va., has mystified the people and has caused financial loss. It furnished power for several mills, but has suddenly disappeared. Some weeks ago the water in the stream began to fall and now the bed is almost dry. There has been plenty of rain, and the only explanation of the stream's disappearance is that it has worn its way through into a subterranean cavern and joined one of the underground streams. Old citizens say that the creek disappeared in the same manner many years ago by finding a subterranean outlet. This incident gave the name to the creek. —Baltimore Sun.

Was Moses a Cowboy?

Fred heard his father talking about a cattle stampede in the west, where the cowboys were caught in the great rush and some of them trampled to death. After a minute or two of profound thought he said:

"Papa, was Moses a cowboy?"

"No, Fred. Why do you ask?"

"Well, I've always heard of him as being in the bulrushes!"

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, June 28.—The cotton market opened barely steady in tone with prices unchanged to two points lower, this being better than expected in view of further rain reports from the Southwest and government predictions for continued wet weather over the belt west of the Mississippi. Following the call, there was a steady improvement in the ruling of prices on demand from shorts who were influenced by claims that some sections to-day had insufficient rains and that the crop in districts of Louisiana and in Alabama was suffering for moisture. Receipts were light, the statistical statements were bullish, and there seemed to be no doubt but that the room was considerably short. A report that next week's government condition statement for the month would show a greater deterioration during the past four weeks than has heretofore been reckoned with, exerted a stimulating effect upon the shorts. Nevertheless, the market had little public speculative support and Wall street bear interests appeared to be as liberal sellers as heretofore. On the rise after the call July reached 8.58 and August 8.24. Trading was fairly active for a Saturday half holiday, with professional operations comprising the bulk of business done.

DEMOCRATIC PLAN OF ORGANIZATION.

1. The unit of county organization shall be the voting precincts. In each precinct there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters at the several precincts in the meeting first called by the county executive committee. And said committee so elected shall elect one of its members as chairman, who shall preside at all committee meetings.

2. The chairmen of the several precinct committees shall compose the county executive committee, which shall meet at the same time and place as the county convention first held in each election year, and elect a chairman of said county committee who need not be a member of the committee, and he shall preside at all meetings of said committee, and shall hold his place until his successor shall be elected. A majority of said precinct chairmen, in person, or by proxy, shall constitute a quorum. The county committee shall likewise appoint a central committee of five, who shall act in its stead when the county committee is not in session.

3. In case there shall be a failure on the part of any precinct to elect its executive committee for a period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said precinct.

4. The members of the precinct committee shall elect to any vacancy occurring in said committee.

5. The county executive committee shall call all necessary conventions by giving at least ten days' notice by public advertisement in three public places in each precinct, at the court house door, and any Democratic newspapers that may be published in said county, requesting all Democrats of the county to meet in their respective precincts on a common day therein stated, which said day shall not be less than three days before the meeting of the county conventions, for the purpose of electing their delegates to the county conventions. Thereupon the meeting so held shall elect their delegates to represent the precincts in the county convention from the voters of the respective voting precincts, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective voting precincts on all questions that may come before said county conventions. In case no meeting shall be held in any precinct in pursuance of said call, or no election shall be made, the precinct executive committee shall appoint such delegates.

PRIMARIES.

6. At every precinct meeting there shall (before the delegates to the county convention are elected) be a vote taken for the different candidates for office, whose names may be presented and the delegates shall vote in the county convention of their respective districts in accordance with this vote; that is to say, each candidate shall receive in the county convention that proportion of the vote to which the precinct may be entitled which he received in the precinct meeting. The chairman and secretary of the precinct meeting shall certify to the county convention the vote received by each candidate at the precinct meeting.

7. Each precinct shall be entitled to cast in the county convention one vote for every twenty-five Democratic votes, and one vote for fractions of thirteen Democratic votes cast by the township at the last preceding gubernatorial election. Provided, that every voting precinct shall be entitled to cast one vote, and each precinct may send as many delegates as it may see fit.

8. The chairmen of the precinct committees shall preside at all precinct meetings. In their absence any other member of said committees may preside.

COUNTY AND DISTRICT CONVENTIONS

1. The several county conventions shall be entitled to elect to their senatorial, judicial and congressional conventions one delegate and one alternate for every fifty Democratic votes, and one delegate for fractions of over twenty-five Democratic votes cast at the last preceding gubernatorial election in their respective counties; and none but delegates or alternates so elected shall be entitled to a seat in said conventions: Provided, further, That in all county conventions in which delegates shall be selected to attend any State, congressional, judicial or other convention, a vote shall be taken in accordance with the plan of organization as to the candidates whose names may be presented to such county convention. The delegates shall be selected from the friends and supporters of each candidate voted for, in proportion to the number of votes he shall receive in such county convention and no other instruction shall be given: Provided further, That when only one candidate is presented and voted for at each county convention it shall be lawful to instruct for such candidate.

2. At every county convention (before delegates to State, congressional, judicial, senatorial or other conventions are chosen) there shall be a vote taken for the different candidates for office whose names may be presented and the delegates shall vote their respective counties in accordance with this vote, that is to say each candidate shall receive in the State, congressional, judicial, senatorial or other convention the proportion of the vote to which the county may be entitled which he received in the county convention. The chairman and secretary of the county convention shall certify to each convention the vote received by each candidate given: Provided, That where only one candidate is presented it shall be lawful to instruct for him. At all State and district conventions the delegates from the different counties may disregard the vote of their respective counties as to any candidate: Provided, That a two-thirds majority of all his votes from the county consent.

3. The chairman, or in his absence any member of the county, senatorial, judicial and congressional convention shall call to order their respective conventions and hold chairmanship thereof until the convention shall elect its chairman.

4. The executive committees of the senatorial, congressional and judicial districts, respectively, shall, at the call of their respective chairmen, meet at some time and place in their respective districts, and the chairmen of said respective committees shall immediately notify the chairmen of the different county executive committees of the said appointment and the said county executive committee shall forthwith call conventions of their respective counties in conformity to said notice to send delegates to said respective district conventions.

STATE CONVENTIONS.

The State convention shall be composed of delegates appointed by the several county conventions. Each county shall be entitled to elect one delegate and one alternate for every one hundred and fifty Democratic votes and one delegate for fractions over seventy-five Democratic votes cast therein at the last preceding gubernatorial election; and none but delegates or alternates so elected shall be entitled to seats in said convention: Provided, That every county shall have at least one vote in the convention.

Resolution passed at meeting of executive committee, November 30, 1897:

"*Resolved*, That in accordance with the resolution hereinbefore adopted, all white electors who intend to vote with us in the next election, and who desire the re-establishment of Anglo-Saxon supremacy and honest government in North Carolina are cordially invited to participate in all our primaries and conventions."

GENERAL RULES.

1. At all conventions the delegates shall be selected as near as may be from the friends and supporters of the candidates voted for.

2. Such delegates—or alternates of absent delegates—as may be present at any Democratic convention shall be allowed to cast the whole vote to which their precinct or county may be entitled.

3. In all conventions provided for by this system, after a vote is cast, there shall be no change in such votes until the final result of the ballot shall be announced by the chairman of said convention.

4. All Democratic executive committees shall have the power to fill any vacancies occurring in their respective bodies.

5. The chairmen of the different county conventions shall certify the list of delegates and alternates of the different district and State conventions, and a certified list of said delegates and alternates to the secretary of the State central committee.

6. It shall be the duty of the county committee and its chairman to furnish such information and make such reports to the chairman of the State committee as he may desire.

SUNDAY MORNING, JUNE 29.

MURDER IN SECOND DEGREE.

Third Trial of Miss Jessie Morrison at El Dorado, Ks., for the Murder of Mrs. Olive Castle.

By Telegraph to the Morning Star.

ELDORADO, KAS., June 28.—Jessie Morrison, on trial here for the third time for the murder of Mrs. Olin Castle, in this city in June, 1900, was found guilty of murder in the second degree to day. The jury was out twelve hours. The case may be appealed again.

The first trial resulted in a disagreement. At the second trial Miss Morrison was found guilty of manslaughter and given a five years sentence. She spent but two months in the penitentiary, being released on bonds on the day the appeal wastaken up by the State Supreme Court. She was granted a new trial last February.

Jessie Morrison and Clara Wiley Castle fought with a razor. Mrs. Castle was slashed in a horrible manner, and her windpipe was almost severed. Jessie Morrison was also cut about the arms and breast. The affray took place eight days after Mrs. Castle had been married to Olin Castle, with whom both women had been in love.

In a death bed statement Mrs. Castle said that Miss Morrison had first attacked her, and the theory of the State has been that Miss Morrison, in a spirit of revenge armed herself with a razor and went to Mrs. Castle's home, intent on killing her. The defence pleaded self-defence, and Miss Morrison, in the three times that she has gone over the details of the bloody fight, has insisted that Mrs. Castle called her into the house, accused her of writing to Castle, and began the fight. The Wileys, the Castles and the Morrisons are leading families in the community, Miss Morrison being a daughter of H. M. Morrison, formerly a circuit judge.

The present trial has been on for ten days. The case was given to the jury last evening. They announced this morning that a verdict had been reached and Miss Morrison, accompanied by her father and brother Hayward, soon entered the court room. As the foreman finished reading the verdict Miss Morrison turned pale, threw her arms around her aged father's neck, hid her head on his shoulder and both wept bitterly. Later, in her cell, Miss Morrison refused to talk other than to say that she had not expected a conviction, adding: "The judge was against me from first to last."

Half a dozen ballots were taken. One stood six for first degree murder, five for second degree murder and one for third degree manslaughter. The jury made no suggestion of punishment. The matter of appeal will be taken up early next week.

TRIPLE ALLIANCE RENEWED.

Between Germany, Austria and Italy. Treaty Signed in Berlin—Its Provisions Kept Secret for Present.

By Cable to the Morning Star.

BERLIN, June 28.—The treaty providing for the prolongation of the alliance between Germany, Austria-Hungary and Italy, (the Dreibund) was signed in Berlin this morning by the imperial chancellor, Count von Buelow; the Austrian ambassador L Von Szogyeny-March, and the Italian ambassador, Count Lanza di Busca. The alliance was renewed in its original form.

Upon the request of the imperial chancellor the text of the new Dreibund treaty will be kept secret for the present, and it is not certain whether its publication will occur later.

The announcement of the signing of the document did not cause surprise, the renewal of the Dreibund having been taken as a foregone conclusion since Count von Buelow's conferences with the Italian and Austrian ministers during the Easter holidays. The German officials have never evinced the slightest concern at the many reports emanating from Paris and also from other diplomatic centres representing the prospects of a renewal of the Dreibund to be gloomy, and they knew all along that Italy's flirtation with France was not intended to be disloyalty to her Tuetonic allies; the officials here regard to-day's signing as preparing the way for a renewal of the commercial treaties between the three countries, although emphasizing Germany's determination to keep political and economic questions apart.

RACE RIOT AT LANGLEY, S. C.

Ten White Men and Six or Seven Negroes Shot and Cut—Two Negroes Afterwards Lynched by Mob.

By Telegraph to the Morning Star.

AUGUSTA, GA., June 28.—At midnight a telephone special from Langley, S. C., announced the shooting by a mob of armed men of two wounded negroes in the calaboose there.

There was a riot between white and negro passengers on a Southern Railway train at Langley about 7 o'clock this evening, in which pistols and knives were freely used. Ten white men were shot and cut, more or less seriously, and six or seven negroes. All of the wounded white men were residents of Langley and vicinity. Only two of the negroes were captured at Langley one, named Collins, was dangerously cut about the head and neck. Another, named Wyatt Holes, was cut on the neck but not seriously.

The news of the riot spread through the country and crowds rapidly gathered in the little factory town. Before midnight they broke into the calaboose and shot the two wounded negroes to death.

The joint conference between the coal miners and operators which has been in session in Birmingham, Ala., for the purpose of making a scale of wages, has adjourned without reaching an agreement.

KING'S CONDITION IS SATISFACTORY.

Physicians Say His Majesty is Now Out of Immediate Danger.

BUT RECOVERY WILL BE SLOW

Announcement Gave Great Relief and Caused General Rejoicing in London—The King Very Cheerful. People Talk of Festivities.

By Telegraph to the Morning Star.

LONDON, June 28.—At 10:45 this morning, the following official bulletin was issued from Buckingham Palace on the condition of King Edward

"The King had a good night and his improved condition is maintained. We are happy that we are able to state this, and we consider his majesty to be now out of immediate danger and the general condition is satisfactory.

"The operation wound, however, still needs constant attention and such concern as attaches to his majesty's condition is connected with the wound.

"Under the most favorable conditions, his majesty's recovery must, of necessity, be protected."

Signed: Lister, Treves, Barlow, Smith, Laking.

Out of Immediate Danger.

"The King is now out of immediate danger." This announcement in the morning bulletin spread quickly throughout the metropolis and caused general rejoicing. The verdict upon which the nation has so anxiously waited caused a longer consultation than usual. Lord Lister, Sir Frederick Treves aud the other doctors discussed the patient's condition for nearly an hour before they committed themselves to the important pronouncement. It was read at Buckingham Palace by only a small crowd, the public being practically assured by yesterday evening's report that everything was going well. Yet, to use the words of the *Westminster Gazette*, the bulletin was "full of intense relief." The underlying suspicion that the doctors might fear more than they wrote, the sensational rumors of his majesty's death which continued, even so late as yesterday, and the lack of definite unofficial news, all combined to create intense nervousness.

Such hopeful statements as the Associated Press had been able to make were not available to the British public, who, however, were spared the sensational reports now so palpably absurd which were cabled to America.

The reference to the wound, in this morning's bulletin, it is authoritatively set forth, can be regarded without any disquietude. By June 30th the doctors are expected to announce that all danger of complications has passed.

Very Cheerful.

The King was very cheerful this morning, after four or five hours' sleep, and his temperature was normal. This afternoon his majesty was transferred from his bed to a couch, where he was placed in a sitting posture. He had before this been able to slightly raise himself by the aid of a pulley. When he first made an attempt to do so the Queen adjusted the pillows so as to form a back-rest, and with a sigh of intense relief the King exclaimed: "Ah! That is better."

The *Lancet* in its comments to-day, says:

"No immediate septic absorption has taken place, as shown by the complete absence of disquieting symptoms. We hope that rumor is ceasing to be busy with the origin and pathology of his majesty's illness, since the very plain statement of facts in the case which we were able to publish June 25th, and since the absolute accuracy of the bulletins has been justified."

Grandees Departing.

In view of the King's condition, it is small wonder that the small group of members of the royal family which gathered at Victoria station this morning were happy and cheerful. The Prince of Wales went there to bid farewell to his cousin, Prince Henry of Prussia, and Crown Prince Louis Philippe of Portugal, and others, who were leaving London, including the Grand Duke of Mecklenburg-Schwerin, Frederick Francis, and the Egyptian and Moorish envoys. The chief of staff of the last named said to a reporter: "I am smitten to the earth with sorrow for King Edward. England is a great country; but I am glad to be going back to civilization."

"A week which has witnessed emotions of such conflicting and intense character as to be without parallel in the nation's history, is ending as it began, in rejoicing. Englishmen themselves can scarcely realize that in the short space of five days the country has gone through the most acute stages of jubilation, fear and hope. Now, with to-day's bulletins, they are all talking of the festivities, many of which will occur as planned.

VIRGINIA COAL FIELDS.

Operators Report Conditions Improved. Every Mine in Operation—No Trouble Reported.

By Telegraph to the Morning Star.

ROANOKE, VA., June 28.—The beginning of the fourth week of the coal miners' strike in the Pocahontas and Flat Top fields of Virginia and West Virginia, finds conditions greatly improved over what they were a week ago. The output of coal yesterday was double that on the same day last week. This is a half holiday with the miners and some anxiety is felt over the possible effect the day and a half rest out of the mines will have on some of the men. It will be the first opportunity the strike agitators have had to get at the men since Judge Keller's injunction restraining them from interference was issued during the early part of the week. The railway officials express themselves as being fully satisfied with the present condition of affairs and think the outlook is brighter now than it has been at any time since the strike was declared. Every mine was again operating this morning and no trouble has been reported so far and nothing serious is anticipated between now and Monday.

T. B. Cowan and wife to D. F. Klein, tract of land in the country on the Newbern road at northeast corner of E. Cline's tract; consideration $275.

WIRELESS TELEPHONE COMMUNICATION A FACT.

Instruments Installed by Prof. R. A. Fessenden Along the Coast Near Cape Hatteras and Roanoke Island.

By Telegraph to the Morning Star.

NORFOLK, VA., June 28.—Wireless telephone communication is a fact. Instruments invented by Professor R. A. Fessenden have been installed in homes along the coast near Caps Hatteras and Roanoke Island, and for a distance of fourteen miles the ticks from the wireless telegraph instruments can be heard over the telephone.

Another strange feature in connection with the experiments is the ability to hear messages being sent over one line through instruments connected with another line at some distance from the wire over which the message is being sent.

The experiments are being conducted between Frisco and Buxton, N. C, and instruments have been placed in the house of Mr. J. Davis, of Buxton, with a wire to Creeds Hill life saving station. It has no connection with the government wire at that point, but messages over the government wire can be heard over the private line. A. J. Fulcher, of Frisco, has a wire running from his home to the same life saving station, but it also has no connection with the government wire, neither is it connected with the wire from Mr. Davis' house. The extremities of the two wires at the station are over twelve feet apart, nevertheless messages that are sent over either of them, or over the government wire, can be easily heard over any of the other two wires; ticks from the wireless telegraph instruments over fourteen miles away are also plainly audible.

A TERRIFIC STORM AT WASHINGTON, N. C.

Tug J. L. Patterson Wrecked in the Gale and All on Board Drowned—Five Persons Lost Their Lives.

By Telegraph to the Morning Star.

CHARLOTTE, N. C., June 28.—A special to the *Observer*, from Washington, N. C., says:

With a fearful burst of thunder and lightning, one of the hardest electric storms ever known here struck Washington last night. The average velocity of the wind was about 45 miles an hour, though it came in flaws as hard as fifty. The tug J. L. Patterson, belonging to the Kugler Lumber Company, was towing two schooners, run by E. H. Moore, the fish dealer here, and when the squall struck, the wind turned the boat on her side and the pilot house was entirely torn away, carrying with it two persons. Five were on the boat. All were drowned. The dead: William J. Womble, captain; Henry Davenport, engineer; Dick Walters, fireman; John Cherry, cook; Allan Moore, the son of E. B. Moore. The latter was in the pilot house which was carried off by the wind and waves.

The United States buoy tender Violet was in peril, but it took on two submarine divers and went to the scene of the disaster. Several tugs are assisting in the recovery of the bodies.

CASE OF GEN. SMITH.

Will Not Be Acted Upon Finally Before the End of Next Week.

By Telegraph to the Morning Star.

WASHINGTON, June 28.—It is announced at the War Department that the case of Gen. J. H. Smith will not be acted on finally before the end of next week at the earliest. Judge Advocate General Davis has completed his review of the proceedings of the court martial and the papers are now in the hands of Secretary Root, who is so busy with other matters that he has not yet had time to give the case the attention it deserves. It has been generally understood that General Smith was acquitted by the court, but it transpired to-day that such was not the case, the court, it is alleged, having found General Smith guilty of violating the rules of war and sentenced him to be reprimanded by the reviewing authority, which in this case is President Roosevelt. Inasmuch as the case is considered confidential until finally acted on by the President, it is impossible to obtain any official information in regard to it.

SHIPMENTS OF PURE SILVER.

From New Jersey to Mexican Government Mint in the City of Mexico.

By Telegraph to the Morning Star.

LAREDO, TEXAS, June 28.—Large shipments of pure silver in bars have been made through this city every day since last Saturday. It is from New Jersey and going to the Mexican government mint in the City of Mexico. Yesterday 119 bars were shipped through yesterday, making a total of 161 bars since Saturday. The average weight of the is bars 75 pounds, so the total number of pounds is 46,200 These ore shipments will pay no extra duty. The Mexican government, it is understood, some time since granted the American Smelting and Refining Company the right to import five million ounces [silver bullion that had been exported from Mexico. This bullion will be coined free of charge in the government mints and under the ruling rate of exchange will permit of a large profit.

STORM IN TENNESSEE.

A Farmer and Two of His Children Killed by Lightning.

By Telegraph to the Morning Star.

CHATTANOOGA, TENN., June 28.—A high wind storm this afternoon seriously damaged the telephone exchange in this city. Several of the soldiers of the Seventh cavalry, at Chickamauga Park, were painfully but not seriously injured.

At Raccoon, Ga., south of Chickamauga Park, the high wind was followed by a remarkable electric storm, during which J. W. Sively, a farmer, and two of his children were struck by lightning and killed.

A TEXAS TORNADO.

Several Persons Killed and Many Injured, Crops Badly Damaged.

By Telegraph to the Morning Star.

DALLAS, TEXAS, June 28.—A tornado which struck a Bohemian settlement near here has killed several persons and injured many others. Many houses were blown to pieces and the crops were laid waste. Several negroes are also reported killed.

BECKVILLE, TEXAS, June 28.—It is reported that Frank Dickson was killed and his wife and two children fatally injured by a storm near here to-day. A heavy rain accompanied by high wind did much damage to crops, blew down fences and unroofed many houses.

A LIVELY DEBATE IN THE SENATE.

Morgan Wants to Know Status of American Stockholders in Panama Canal.

HANNA OPPOSED THE INQUIRY

Resented the Insinuation That a Lobby Was in Washington to Advocate the Panama Route—Bill Relating to Tobacco Passed.

By Telegraph to the Morning Star.

WASHINGTON, June 28.—A lively debate was precipitated in the Senate to-day over a resolution of Mr. Morgan, of Alabama, authorizing the Committee on Inter-oceanic Canals to investigate the status of American stockholders of the Panama Canal Company with a view of protecting them in the French courts. Senator Spooner, of Wisconsin, Senator Hanna, of Ohio, and Senator Mitchell, of Oregon, antagonized the resolution, maintaining that it was a matter with which the United States had nothing to do. Senator Morgan warmly advocated the proposition, but it finally went over to the calendar without action.

Senator DeBoe and Senator Blackburn, of Kentucky, engaged, in an interesting, but good natured discussion of Kentucky politics, in the course of which the former alleged that the reason why Governor Taylor did not return to Kentucky and stand trial as an accessory to the murder of Governor Goebel was that the courts were corrupt, and $100,000 reward offered for the apprehension of the murderer of Goebel had been used to corrupt the courts and bribe witnesses. This Mr. Blackburn emphatically denied, and declared he was so thoroughly convinced of Taylor's guilt that he would be willing to submit the case to any judge and jury in the Union.

After Senator Morgan had explained his resolution, Senator Spooner, of Wisconsin, vigorously opposed the adoption, declaring that it was without precedent, entirely mischievous and obstructive of the action of Congress.

Senator Morgan insisted upon his resolution. He wanted to know—and would know—whether or not the lobby that had been hanging about Congress—so thick that it might be cut with a knife—had been receiving or was to receive a part of the $40,000,000 to be paid for the Panama canal property. Things of that kind, he said, had occurred in diplomacy since the treaty was made. Largesse, stipends and bribes were paid to-day to men who conducted great negotiations. He desired to be assured that the United States had not been scandalized in any respect.

Senator Hanna opposed the resolution, saying that the people had accepted the verdict of Congress upon the canal and were satisfied. He resented the insinuation that a lobby was here to advocate the Panama route and to induce congressmen to vote against their convictions and inclinations. He protested against such an insinuation and declared that he never had known of such a lobby, and he challenged Senator Morgan to produce proof of his charge.

Senator Aldrich called up a bill relating to tobacco passed by the Senate, and moved to agree to an amendment of the House providing that no packages of manufactured tobacco, snuff, cigars or cigarettes shall have attached to them any representation or promise of a ticket or chance in an y lottery or any immoral picture, The amendment was agreed to, thus passing the bill.

House of Representatives.

When the House adjourned to-night the General Deficiency bill and one item in the Naval Appropriation bill were[all that remained in dispute between the two houses so far as the appropriation bills are concerned. The conference report on the District of Columbia bill was adopted and it now goes to the President for his signature.

Earlier in the day the House decided the contest election case of Horton vs. Butler, from the 12th Missouri district, by declaring the seat vacant. By a strict party vote of 100 to 136, Mr. Butler, who is a Democrat, was declared not entitled to the seat. Mr. Butler made a vigorous speech of an hour in defence of his right to the seat. The Dick militia bill was made a continuing order, not to interfere with conference reports.

Mr. Foss, chairman of the Committee on Naval Affairs, called up the conference report on the Naval Appropriation bill. It was adopted—116 to 74. This left but one item in dispute between the two houses, the provision for new ships. The Senate disagreed to the proviso attached by the House requiring that three ships provided for in the bill (one battleship, one cruiser and one gunboat) should be built in the government yards.

Mr. Foss moved to recede and concur in the Senate amendment with an amendment requiring that the secretary of the navy should build at least one ship in a government yard, and provided, further, that the secretary of the navy should have authority if he did not obtain reasonable bids, to have all the ships built in government yards. Mr. Foss told the House that the conferees found that the Senate absolutely declined to accept the House provision in its original form, but he said that the amendment he offered contained substantially the same provision, except that the secretary was only required to build one ship in the government yard.

Mr. Kitchin, of North Carolina, urged the House to stand by its original action and insist that a battleship, a cruiser and a gunboat should be built in government yards. If the amendment prevailed, he said, the secretary of the navy would build only a gunboat at a government yard.

Mr. Foss' motion was lost—81 to 87. The House then insisted upon its disagreement to the Senate amendment to strike out the provision and the bill was sent back to conference. Messrs. Foss, of Illinois; Taylor, of Ohio, and Meyer of Louisiana were appointed conferees.

WARM WIRELETS

A partial agreement on the Deficiency Appropriation bill, presented to the House yesterday leaves the Buffalo Exposition and Charleston Exposition items still in dispute.

A dispatch from Laredo, Texas, says that yesterday, with one exception, was the hottest day ever experienced in that city. The local observations showed a maximum temperature of 111 degrees in the shade.

Near West Norfolk, Va., yesterday, Constable F. Adams shot and killed Albert Jackson, a negro, for whom he had a warrant charging theft. Jackson, when overtaken advanced upon Adams, with a drawn knife. The officer fired four shots from a revolver, all of which took effect.

A head-on collision between two heavily loaded cars on the Hudson division of the Marlboro (Mass.) street railway yesterday resulted in the death of Motorman John A. Harris and injuries to about forty passengers, several of whom were taken to hospitals.

The statement of the Associated Banks for the week ending yesterday shows: Loans, $823,871,800; increase, $4,856,700. Deposits, $958,829,400; increase, $4,376,600. Russia Suspicious of Visitors.

It would be easier for a camel to pass through the eye of a needle than for a foreigner to enter Russia these days without a passport, says a St. Petersburg correspondent. The system is getting more and more rigid instead of being relaxed. After making a good deal of official fuss on your entering the country—carefully scrutinizing the passport, copying it and taking it from you from time to time—they make the same fuss on your leaving. They keep harassing you during your stay with questions as to when you intend leaving. They give you the idea that your presence among them is a matter of much concern to them and that it will be a great relief to them when you are gone.

Unlucky Names.

Juliet's "What in a name?" might be asked regarding the vessels of the British navy which have borne the names of reptiles. It is said that four Vipers have been wrecked, the last of the name but recently, and a Cobra, still more lately, has broken in two and gone to the bottom with officers and men. Also four Serpents, three Lizards, two Snakes, one Alligator, one Crocodile, one Rattlesnake, one Basilisk and two Dragons, which are not reptiles, have at various times met with disaster. British tars, it is said, have a superstitious feeling of dislike against sailing in vessels bearing such names. Lucky or unlucky, the names are needlessly disagreeable.
